⁷ The operating system licence must be purchased separately

⁸ The successful recovery of data depends on many variables, if data is unable to be recovered no fee will be charged.

ICT One-2-One Training Sessions

Over the past decade I have taught adults of all abilities, ages and confidence levels, from the 16 year old teenager know it all to a 92 year old lady with a passion for pushing herself and her mind to the limit.

If you or somebody you know doesn't understand a mouse from a keyboard I can help. If you have a good understanding of the basics but want to start using your computer to speed up your work and reduce your workload by getting more done in less time, I can help. If you class yourself as an experienced user and want to excel in a specific application... again I can help.

Books and the internet are a great source of information when you're learning a skill, but sometimes what you need is somebody to guide you through the pits and troughs, if this is you or somebody you know please get in touch.

	Price

Web Development - If you're developing a website yourself I can help you through any challenges you bump into.	£22 per hour
Internet Marketing - You may have a great website but a website without internet marketing is a like a shop with no windows. I can show you how to drive visitors to your website so you can start building a community and making a little money along the way.	£25 per hour

Design & Development Services

I've been designing and developing web sites, graphics, logo's and applications almost since I first started using a computer in the early 90's. All website content can be easily updated by you. You can add images, videos, music, pages, products and more through a simple user interface. All websites include comprehensive training and support... If you can use word, you'll be able to update your website.

	Price
